

YASH SHARMA

Full Stack Developer | SDE

yashsharma4841@gmail.com | [\(+91\) 9571790228](tel:+919571790228) | Jaipur, Rajasthan, India | [GITHUB](#) | [LINKEDIN](#) | [PORTFOLIO](#)

PROFESSIONAL SUMMARY

MCA graduate and Full Stack Developer with hands-on experience shipping production-ready web applications across **5+ real-world projects**. Engineered **10+ REST APIs**, implemented **JWT authentication**, and applied database optimization using indexing and JOINS. Proficient in **MERN stack, Next.js, PHP, MySQL**, Tailwind CSS, and cloud deployments on Vercel and Render.

CORE SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), Tailwind CSS, React.js, Redux, Bootstrap, Next.js, TypeScript

Backend: Node.js, Express.js, PHP, REST APIs, MVC Architecture, DSA, OOP

Database & Auth: MongoDB, MySQL, Firebase, JWT

Tools: Git, GitHub, Postman, Cloudinary, Vercel, Render, WordPress, Figma

PROFESSIONAL EXPERIENCE

K4 Media and Technologies, Jaipur | *AI Content Developer Intern* **March 2026 – Present**

- Engineered **50+** structured prompts for text, image, and animation generation using **ChatGPT, Gemini**, and AI tools.
- Architected reusable prompt pipelines, cutting reducing iteration time across different digital products.
- Produced **100+** AI-assisted digital assets and standardized templates for cross-functional reuse.
- Streamlined generation workflows, improving team consistency and delivery efficiency across output pipelines.

Geo Planet Solution Pvt. Ltd., Jaipur | *IT Technical Analyst Intern* **July 2025 – October 2025**

- Shipped a production-ready web application end-to-end individually using **React.js, PHP, and MySQL** — from design to deployment.
- Collaborated on **5+** projects spanning full-stack and blockchain-based codebases.
- Implemented **10+** REST APIs with standard API operations, applying optimized query logic and efficient backend design.
- Optimized **MySQL** query performance via query-level optimizations on a large-scale dataset.

TECHNICAL PROJECTS

Image Gallery App | MERN, Tailwind CSS, Next.js, Firebase, Cloudinary | [GitHub](#) | [Live](#) **2026**

- Architected an image platform with user and admin dashboards, **JWT** authentication, and role-based access for **100+** users.
- Integrated **Cloudinary CDN** for faster image delivery; deployed on **Vercel** and Render with stable uptime.
- Engineered **12+** REST APIs for image CRUD, likes, and comments with input validation.
- Boosted frontend performance via lazy loading and pagination to handle large image datasets efficiently.

Office Task Management System | ReactJS, PHP, MySQL | [GitHub](#) **2025**

- Delivered end-to-end solo — Figma to deployment — with **2** role-based panels (Admin and Employee).
- Implemented **15+** PHP REST APIs with full CRUD operations and file uploads up to **10MB**.
- Optimized **MySQL** queries using indexing and JOINS on a **1,000+** record dataset for improved data retrieval.
- Designed **20+** Figma screens before development, enabling a clear and structured implementation.

EDUCATION

Manipal University Jaipur **July 2023 – November 2025**
• Master of Computer Applications (MCA) | **CGPA: 8.0 / 10** Jaipur, India

University of Rajasthan **August 2018 – October 2021**
• Bachelor of Computer Applications (BCA) Jaipur, India
